The model **30-2400 Boost Control Solenoid** is specially modified for use as a boost control solenoid in high boost automotive systems. The kit includes all the necessary fittings to plumb your wastegate for either an internal or external wastegate.

The **30-2400 Kit Contains:**
- 1x Fast Response Solenoid
- 1x Mating Connector Assembly
- 1x 1/8” NPT Sintered Muffler
- 2x 1/8” NPT to 3/16” Hose Barb Adapters

**Operating Voltage:** 12VDC  
**Operating Frequency:** 31hz  
**Duty Range:** 10 to 90%  
**Max Pressure:** 120 PSI

**Electrical Connection:** Polarity is unimportant. Hook one wire to switched 12 Volts and the other to the AEM EMS’s PW2 output or the driving devices boost control line. **NOTE:** on the SRT4 EMS 30-1510 PW2 outputs +12V. Hook up one wire to PW2 and one wire to ground. If you are not sure please refer to your EMS instructions/pin out sheet and verified the polarity output on PW2. When energized, ports 1 & 2 are connected, when de-energized, ports 2 & 3 are connected. The port numbers are clearly noted on the solenoid body.

---

**Hookup for External Wastegates:**
- **Port 1:** Turbo Pressure  
- **Port 2:** Top Can of Wastegate  
- **Port 3:** Sintered Muffler  
This hookup, in addition to running a hose from manifold pressure to the bottom can of the wastegate, will give you the highest boost when the solenoid is fully energized (90%+) and allows the minimum boost to be determined by the mechanical spring in the wastegate when the solenoid is not powered (0-10% duty).

---

**Hookup for Internal Wastegates:**
- **Port 1:** Sintered Muffler  
- **Port 2:** Wastegate  
- **Port 3:** Turbo Pressure  
This hookup, with no additional hoses required, will give you the highest boost when the solenoid is fully energized (90%) and allows the minimum boost to be determined by the mechanical spring in the wastegate when the solenoid is not powered (0-10% duty).
AEM Electronics Warranty

Advanced Engine Management Inc. warrants to the consumer that all AEM Electronics products will be free from defects in material and workmanship for a period of twelve months from date of the original purchase. Products that fail within this 12-month warranty period will be repaired or replaced when determined by AEM that the product failed due to defects in material or workmanship. This warranty is limited to the repair or replacement of the AEM part. In no event shall this warranty exceed the original purchase price of the AEM part nor shall AEM be responsible for special, incidental or consequential damages or cost incurred due to the failure of this product. Warranty claims to AEM must be transportation prepaid and accompanied with dated proof of purchase. This warranty applies only to the original purchaser of product and is non-transferable. All implied warranties shall be limited in duration to the said 12-month warranty period. Improper use or installation, accident, abuse, unauthorized repairs or alterations voids this warranty. AEM disclaims any liability for consequential damages due to breach of any written or implied warranty on all products manufactured by AEM. Warranty returns will only be accepted by AEM when accompanied by a valid Return Merchandise Authorization (RMA) number. Product must be received by AEM within 30 days of the date the RMA is issued.

Please note that before AEM can issue an RMA for any electronic product, it is first necessary for the installer or end user to contact the tech line at 1-800-423-0046 to discuss the problem. Most issues can be resolved over the phone. Under no circumstances should a system be returned or a RMA requested before the above process transpires.

AEM will not be responsible for electronic products that are installed incorrectly, installed in a non approved application, misused, or tampered with.

Any AEM electronics product can be returned for repair if it is out of the warranty period. There is a minimum charge of $50.00 for inspection and diagnosis of AEM electronic parts. Parts used in the repair of AEM electronic components will be extra. AEM will provide an estimate of repairs and receive written or electronic authorization before repairs are made to the product.
